TECHNICAL INFORMATION | INFORMATIONS TECHNIQUES

	Material Matériau:	Natural Stone - Marble Pierre Naturelle - Marbre
	Floor / Wall Plancher / Mur:	Both Plancher et Mur
	Shade Variance Variation de Teinte:	V4
	Breaking Strength Effort de Rupture:	N/A
	Thickness Épaisseur:	10 mm
	Rectified Tile Rectifier:	No - Tumbled Edge
	Water Absorption Masse d'eau Absorbée:	N/A
	Slip Resistance Résistance au Glissement:	N/A
	Stain Resistance Résistance aux Taches:	NOT RESISTANT - Must be sealed Non Résistant - Doit être scellé
	Frost Resistance Résistance au Gel :	NOT RESISTANT Non Résistant
	Abrasion Resistance Résistance à L'Abrasion:	N/A
	Chemical Resistance Résistance aux Produits Chimiquee:	NOT RESISTANT - Must be sealed Non Résistant - Doit être scellé

AVAILABLE FOR SPECIAL ORDER | DISPONIBLE SUR COMMANDE SPÉCIALE

Special order products are subject to a minimum 10-12 week order time | Les produits sur commande spéciale sont soumis à un délai de commande minimum de 10 à 12 semaines.

NATURAL STONE

INSTALLATION AND MAINTENANCE

INSTALLATION ON WALL AND CEILING-

PRO SUPERLITE MORTAR - WHITE - is a high-performance, super-light-weight, polymer-modified, single-component thin-set mortar with exceptional non-sag and non-slump characteristics for installation of large format ceramic, porcelain, marble and natural stone tiles.

INSTALLATION ON FLOOR -

PRO FLEX SF - WHITE - is a specially formulated polymer-modified sag-slump resistant thin-set mortar designed for floor and wall installation of large-format and heavy tile and stone. PRO FLEX SF is suitable for institutional, commercial and residential installations.

PRO FLEX - WHITE - is a single-component, polymer-modified thin-set mortar suitable for interior and exterior installation of institutional, commercial and residential non-vitreous, semi-vitreous, vitreous and impervious tiles including porcelain and most natural stone. Also suitable for the installation of most marble and granite tiles over well-prepared concrete and exterior grade plywood substrates.

GROUT -

PRO GROUT MAX 2.0 - is an ultra-premium, next-generation, polymer-modified, rapid-curing, efflorescence-free "hybrid" cement grout. PRO GROUT MAX 2.0 has an advanced-technology aggregate that offers the advantages of unsanded grout (vertical application, narrow joints and very low tile scratching) and sanded grout (floor application, wide joints and high compressive strength).

INITIAL WASH:

PRO EFFLONET MARBLE - is a NON-ACIDIC cement grout residue remover designed to safely remove cement grout residues on marble and calcareous stones. Also removes residues from grouts mixed with additives (such as PRO GROUT PLUS)

NATURAL STONE

INSTALLATION AND MAINTENANCE

PROTECTION FOR INTERIOR FLOORS:

PRO AQUASEAL PLUS - is a high-performance water-based penetrating sealer formulated to protect natural stones and ceramic tiles leaving a natural look with no sheen and apparent coating. Seal before installation/grout and after grout.

PROTECTION AND SATIN LOOK:

PRO HS-SEALER PLUS (SATIN FINISH) - is a high-performance water-based urethane sealer formulated to protect, enhance colors and leave a satin finish on honed and textured-surfaced natural stone. Seal before installation/grout and after grout.

PROTECTION AND GLOSSY LOOK:

PRO HS-SEALER PLUS (GLOSS FINISH) - is a high-performance water-based urethane sealer formulated to protect, enhance colors and leave a glossy finish on honed and textured-surfaced natural stone. Seal before installation/grout and after grout.

ORDINARY MAINTENANCE:

PRO CLEAN - is a multi-surface neutral cleaner designed for routine cleaning of ceramic, natural stones, quartz, hardwood, laminate and vinyl surfaces.

EXTRAORDINARY MAINTENANCE:

PRO DECAP - is a degreasing cleaner for tiles, natural stones, quartz and grout joints, that deep-cleans most domestic stains; removes waxes, water-based acrylic and urethane sealers and finishes.
