

# THE AQUARIUS COLLECTION

Aquarius I Collection

### The Story

Born from the quiet beauty of ancient limestone landscapes, the Aquarius Collection captures the elegance of stone that has been shaped over millions of years. Every delicate vein, warm mineral movement, and soft tonal variation tells the story of nature's slow, patient craftsmanship—a history preserved and reimagined for contemporary interiors.

Unlike dramatic marbles that command attention, Aquarius speaks in whispers. Its creamy ivory, warm beige, and luminous white backgrounds are intersected by fine mineral veining that appears almost hand-drawn, creating a surface that feels organic, effortless, and timeless. The subtle texture evokes weathered stone gently polished by water and time, balancing natural authenticity with refined sophistication.
